Technical Skills

- **Programming Languages**
  Java, JavaScript, TypeScript
- **Frameworks**
  ReactJS, ExpressJS, Mongoose, Redux, SASS, Tailwind, APIs
- **Tools**
  Git, Nginx, Postman, AWS

Soft Skills

- Proactive
- Persistence
- Team Player
- Critical Thinking
- Organizational skills
  Manages 300+ developer's discord community

Languages

- Hindi
- English

Objective

Passionate developer with competitive nature who loves to code.
Always learning new technologies and want to use my education & skills with other enthusiastic developers on a project with great vision that will benefit users on a large scale in their day-to-day lives.

Education

2018 – now	**Bachelor of Technology** Focus: Computer Science and Engineering.	VIT Bhopal
2016 – 2018	High School	DAV Rohtak

Projects

May 2021	**Backdoor** *https://github.com/BackdoorForum* - Newbie friendly cyber security discussion forum where you can find cybersecurity topics and enthusiasts to have discussions. - Group project with motive of creating something for community. - I mainly worked on Backend, Rest API and UI/UX designing. - *TypeScript, ExpressJS, ReactJS, Mongoose, Google OAuth, Tailwind*.	Group Project
2020 – 2021	**Discord Bots** - I've made 3 discord bots JSL, Booster Bot & Guess The Number so far and all bots have over **2.5 Million users** (2,500,000 users) combined. - Started as hobby and love to contribute my part to the community. - *Discord.js, MongoDB, Lavalink, Postman and APIs like TMDb*.	Personal Project
2020 – 2021	**Web Dashboard for Discord Bots** - Created websites / web dashboards for discord bots to demonstrate bot's features in web-app form so that users outside discord can also take advantage. - Provide starter guide to new users. - *ExpressJS, EJS viewport, Discord OAuth, Steam API, SASS, ReactJS*.	Personal Project
2019	**Kryptoblaze** *https://abhay07.itch.io/kryptoblaze* - 2D Top-Down Shooter Game that we made as a group project from scratch. - I contributed in creating GAME UI/UX, Characters and Animations for the game along with Leveling system. - *Unity, Photoshop, Unity C#*.	College Group Project

Contributions

2021	**Definitely Typed** *In top 10 repos of GitHub, maintained by microsoft* Contributed in fixing cookie types in client-sessions package.

Certifications

2021	Node (Basic)	HackerRank
2021	React (Basics)	HackerRank
2021	JPMorgan Chase - Software Engineering Virtual Experience	Forage
2021	Goldman Sachs - Engineering Virtual Program	Forage
2020	HTML, CSS and JavaScript for Web Developers	Coursera
